

CLEAR CASE · ACQUA FINISH

CrystalCase.

A crystal-clear case for iPhone 17 Pro, 17 Pro Max, 18 Pro and 18 Pro Max with a built-in aluminum alloy kickstand and a hand-drawn MagSafe ring, guaranteed never to yellow. *Acqua*, Italian for water.

- iPhone 17 & 18 Pro / Pro Max
- Acqua (clear)
- Retail \$49
- Category: CE

MATERIK® CRYSTALCASE · ACQUA FINISH · IPHONE 17 & 18 PRO / PRO MAX

The clear reasons a buyer stocks it.

01

Clear that stays clear.

A lifetime anti-yellowing guarantee, the headline differentiator. Most clear cases go cloudy or amber in months, this one is replaced if it ever yellows.

02

More than transparent.

A built-in CNC-machined aluminum alloy kickstand in a high-shine chrome finish, doubling as a raised camera protector, plus a hand-drawn brushstroke MagSafe ring. Both designed in Italy.

03

Easy entry, easy add-on.

The accessible opening price of the range, a simple add-on that lifts basket size, with room for a healthy retail margin.

04

MagSafe and a real AI button.

Clean magnetic snap and easy wireless charging. On iPhone 18 Pro and Pro Max the Camera Control, the AI button, is fully covered and built in liquid silicone with an aluminum alloy frame and a tempered glass top, for precise and responsive touch. Side buttons covered.

The clear line opens with Acqua.

● Acqua · clear

A single piece of optically clear polycarbonate, named Acqua for pure water and pure clarity. The signature details, a brushstroke MagSafe ring and a wave-shaped aluminum alloy kickstand, read as water in motion. Room to add more Crystal finishes over time.

The iPhone color shows through.

MATERIK® CRYSTALCASE · ACQUA OVER TWO IPHONE COLORS

Opens into a stand, closes into a camera protector.

Kickstand open

The CNC-machined aluminum alloy frame, in a high-shine chrome finish, flips out to prop the phone for hands-free viewing up to a 110° angle, and closes back over the cameras as a raised protector. Designed in Italy.

What is on the case, and in the box.

Finish	Acqua (clear)
Material	100% polycarbonate (PC), clear
Kickstand	Integrated aluminum alloy, CNC-machined, chrome finish, wave form, adjustable to a 110° viewing angle, doubles as raised camera protector
